

Vinco®-TuffScrub

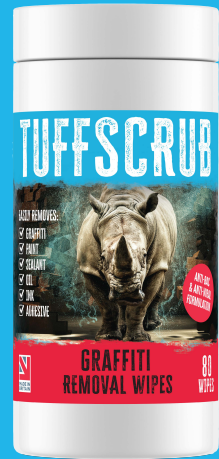

Vinco® -TuffScrub Graffiti Removal Wipes

These wipes are formulated from a tough two sided textured and soft wiping material. One side of the wipe is textured which is designed to loosen the graffiti off of the surface. As it is a soft textured material this should not scratch the surface, if unsure try a small area and allow to dry before wiping down the whole surface. The other side of the wipe is a soft flat wiping material which is designed to pick up the graffiti dirt after it has been loosened with the textured side of the wipe. It is always best to use two big wipes for this application. This Graffiti removing wipe comes in a robust flip top canister containing 80 big

wipes that are 20x20cm in size.

Ideal for use in sectors such as:

- Facilities Management
- Local Authority
- Education Sector
- Councils
- Utility Companies
- Police Services
- Sport Centres
- Transport Companies
- Community Organisations
- Retail
- Housing Associations
