Vinco®-ZeroWipe

Multi-Use Biodegradable & Plant Based Plastic Free Wet Wipes Tub For Cleaning, Disinfection & Decontamination

The Vinco®-ZeroWipe range is suitable for use on hands, hard surfaces and equipment. Designed and developed from science it emphasis cleaning, disinfection, and decontamination. This multi-purpose wipes range is formulated from a plant based lactic acid active and coupled with a high performing 100% biodegradable viscose wipe. The plant-based formulation is free from harmful biocides such as PHMB, Amine, Triamine, Ethanol and Chlorine which are all widely used across other conventional products. This wipe is powerful, safe and delivers broad-spectrum disinfection of multi-resistant bacteria, viruses, yeast and mycobacteria approved for facilities, education and food processing sectors.

Biodegradable

Code

CP247

Wipes

Biodegradable wipes
