

Vinco®-SanWipe

Vinco® -SanWipe Cleaning & Sanitising QUAT Wipes Refill | 500 White Wipes | CP166

The QAC based Anti-Bac and Anti-Viral active solution contained within the wipe ensures a kill rate of 99.99% making this one of the most effective sanitising wipes on the market. With a contact time of only 5 minutes against EN14476 standard, means users do not have long to wait before effective sanitisation is achieved. And yes, it has been tested and passes EN14476 standards confirming this wipe is effective against Coronavirus.

This popular wet wipe is manufactured from sustainably sourced materials and formulated to meet the high demands of the facilities sector. The facilities wipe comes in a specially designed, 100% Recyclable Bag that can be slit across top to access wipes and can then either be placed in the dispensing tub or straight from the bag.
